Lenses

There are many steps to consider
the glasses are completed. Size,
selection, quality and style.

First after the examination has
been completed, the proper size and
style of the glass is determined,
and by that we mean: Not one
style for everybody, but individual
styles best suited for particular
people.

Last but not least:

Our lenses are selected from the
very best quality of glass. They

are accurately ground. They are
made up by the Merry Optical Co.,
who have a nationwide reputation
for accuracy and prompt service.

We are prepared to give thorough
and accurate examinations. Every
courtesy is extended to you.

Our prices are reasonable.

DOLLARS AND CENTS

Counting it only in dollars and cents
how much did that cold cost you?
A man may not always stop work
when he has a cold, but perhaps it
would be better if he did. It takes
about ten days to get completely rid
of a cold under the usual treatment.
That time can be much shortened by
taking Chamberlain's Cough Remedy
and proper care of yourself, in fact, a
bottle of this remedy in the house is a
mighty good investment during the
winter and spring months.

**BOOZE IN MEDICINES
TO FOOL THE SICK**

Read the label. You can bank on it
if the label reads 18 to 20 per cent.
alcohol that such medicine depends on
its whiskey effect to sell it. Most of
these "wonderful" tonics and "master
medicines" make the patient feel
temporarily better from the stimulat-
ing effect while at the same time they
are undermining health.

"Number 40 For The Blood," con-
tains but 9 per cent. alcohol and you
can not drink it "ad libitum." One
teaspoonful is a dose for an adult. It
is an old doctor's prescription and has
been successfully employed in blood
poison, mercurial and lead poisoning,
scrofula, rheumatism, catarrh, consti-
pation, liver and stomach troubles.
Under its use nodes, tumors, goitre
and scrofulous swellings, that have
withstood all other treatment, disap-
pear as if by magic.

CHRONIC CONSTIPATION

There are people who never have a
movement of the bowels without it is
produced by a cathartic. Most of
them have brought that condition on
themselves by the use of mineral
waters and strong cathartics that
take too much water out of the system
and aggravate the disease they are
meant to relieve. A mild laxative
tonic like Chamberlain's Tablets af-
ford a gentle movement of the bowels
that you hardly realize has been pro-
duced by a medicine, and their use is
not so likely to be followed by consti-
pation.

Too much care cannot be exercised
in selecting a cough medicine for chil-
dren. It should be pleasant to take,
contain no harmful drug and most ef-
fectual in curing their coughs and
colds. Long experience has shown
that Chamberlain's Cough Remedy
meets these conditions. It is a favor-
ite with many mothers.
